Other features: Chatbot:

Our chatbot feature is relevant to our solution because it provides efficiency, accessibility and patient support, improving access to healthcare in many ways:

• Available 24/7 for health-related inquiries.

• Useful for patients from rural and underserved areas where they can't easily reach medical facilities.

• Provide multilingual support and medical guidance.

• Acts as a first line of support before patients connect with medical professionals.

• It is cost effective and aims at saving patients a lot of money and time.
